|--|------|
| Preface . . . . .                        | v    |
| General Introduction . . . . .           | vi   |
| Living matter . . . . .                  | 7    |
| Protoplasm . . . . .                     | 7    |
| Cell . . . . .                           | 11   |
| Tissue . . . . .                         | 19   |
| Nutrition and growth . . . . .           | 30   |
| Chemical co-ordination . . . . .         | 51   |
| Reproduction . . . . .                   | 56   |
| Organic evolution . . . . .              | 70   |
| Divisions of the plant kingdom . . . . . | 86   |
| Seeds . . . . .                          | 92   |
| Roots . . . . .                          | 111  |
| The shoot . . . . .                      | 123  |
| Bud . . . . .                            | 134  |
| Branching . . . . .                      | 138  |
| Leaf . . . . .                           | 140  |
| Inflorescence . . . . .                  | 157  |
| Flower . . . . .                         | 164  |
| Pollination and Fertilization . . . . .  | 177  |
| Fruit . . . . .                          | 181  |
| Histology . . . . .                      | 187  |
| Tissue system . . . . .                  | 210  |
| Anatomy of plants . . . . .              | 210  |
| Cryptogams . . . . .                     | 210  |
| Classification of animals . . . . .      | 210  |
| Amoeba . . . . .                         | 210  |
