First Semester FYUGP Statistics Examination
November 2024 (2024 Admission onwards)
KU1DSCSTA101 (BASIC STATISTICS)
(DATE OF EXAM: 2-12-2024)

Time : 120 min

Maximum Marks : 70

Part A (Answer any 6 questions. Each carries 3 marks)

1. What are the different types of data?   3

2. What is ordinal data? Explain with an example.   3

3. Define interval scale of measurement and give an example.   3

4. Why classification of data is important in statistics?   3

5. What are the sources of secondary data?   3

6. Define geometric mean. Write any two merits of the same.   3

7. Compute the mode of 2, 3, 5, 7, 4, 6, 3, 3. 2, 6, 7, 3, 6, 5, 4, 4, 4   3

8. What do you mean by quantiles?   3

Part B (Answer any 4 questions. Each carries 6 marks)

9. Provide a detailed explanation geographical data with real life example.   6

10. Discuss the significance of using the correct scale of measurement when analyzing data.   6

11. Explain measurement scales with examples.   6

12. How can one locate mode graphically in the case of a grouped data?   6

13. Explain how shifting of origin and change of scale affect the mean.   6

14. Explain how will you calculate mean in short cut method for a Continuous data   6

Part C (Answer any 2 question(s). Each carries 14 marks)

15. (a) Find the missing information from the following

	Group 1	Group 2	Group 3	Combined
Number	50	—	90	200
Standard deviation	6	7	—	7.746
Mean	113	—	115	116

7

(b) Find standard deviation for the following data

Class	0-2	2-4	4-6	6-8	8-10	10-12
Frequency	2	4	6	4	2	6

7

16. Find quartile deviation for the following data

Class	10-20	20-30	30-40	40-50	50-60	60-70	70-80	80-90	90-100
Frequency	20	90	100	190	70	50	50	45	15

14

17. (a) Explain graphical and diagrammatic representation of data. Explain the different types of graphs and diagrams.

(b) A retail store records the following number of customer visits over the past week.

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
150	180	130	200	220	250	170

Draw a bar chart to show the customer visits per day. Also explain the advantages of using a bar chart to represent this data.

14
