## SECTION – C

V. Read the passage and answer the questions.

The dams not only save the water of our rivers for irrigation but they do other things as well. They control floods in rivers when there are floods, gates of dams are opened, and the water flows down the river and into the canals. The dams also do other important things, for example, they make electricity. The water in dams falls on giant wheels and turns them. The wheels turn machines which produce electric current. Some years ago, the cities and big towns of our country had electricity. But, now a days, a lot of it is produced by the dams. When more dams are built and more electricity is produced, it can be supplied even to small villages. This will give our villages not only light but also power for small industries.

- 1) What are the functions of a dam ?
  - 2) How does a dam help in controlling floods ?
  - 3) How is electricity produced with the help of dam water ?
  - 4) When will small villages get electricity ?
  - 5) Give 2 synonyms of the word Giant. (5×1=5)
- VI. Based on the passage above answer any one of the question in 80 words.
- 6) How has electricity become an indispensable factor in modern life ?
  - 7) Give some important uses of electricity.
  - 8) What are the environmental and social benefits of dams ? (1×3=3)
